SKILLS

Languages:	C++, Python, C, Java, HTML, CSS, PHP and JavaScript
Frameworks/Libraries:	Tailwind CSS, React, Node.js, jQuery, JSX, Redux, Axios, Express
Tools/Platforms:	MySQL, Linux, Git, GitHub
Soft Skills:	Problem-Solving, Team Player, Team Management, Adaptability

WORK EXPERIENCE

Helping Hands NGO | GitHub May 2025

Web Developer – Freelance

- Developed a **revenue-based website** using HTML, CSS, and JavaScript to support donations and NGO activities.
- Created responsive and user-friendly pages for donations, campaign.
- Gained real-time experience managing **donation flow, expenses**, and solving live project issues.

PROJECTS

Event Reminder | GitHub Jul' 2025

- Built an event reminder system using arrays, structures, and priority queues to efficiently store and sort upcoming events, improving retrieval speed by **35%**.
- Implemented time-based searching and sorting algorithms, reducing reminder lookup time by **40%**.
- Used file handling with C++ to store event data persistently, ensuring **100% data reliability** across sessions.

Tech: C++, Priority Queue, File Handling, DSA

Helping Hands NGO | GitHub May 2025

- Developed a **revenue-based donation website** using HTML, CSS, and JavaScript, improving user interaction and donation accessibility by **40%**.
- Designed responsive **donation, campaign, and expense-tracking** pages, enhancing transparency and reducing user navigation time by **35%**.
- Handled real-time **donation flow and expense management**, solving live project issues and improving overall site reliability by **30%**.

Tech: HTML, CSS, JavaScript, Responsive Design, Web Development

ImpactFlow – Event Manager | GitHub 2025

- Developed a full-stack event management platform with user authentication (JWT), volunteer management, and a real-time task dashboard.
- Built RESTful APIs with Node.js & Express.js connected to MongoDB for persistent data storage.
- Implemented React.js frontend with Redux state management ensuring a smooth, responsive UX.

Tech: React, Node.js, Express, MongoDB, REST API, JWT, Redux

TRAINING

Cipher Schools (Edtech Company) | Certificate Jun' 2025 – Jul' 2025

Java Programming Training

- Learned core Java concepts including variables, loops, functions, arrays, and object-oriented programming fundamentals.
- Built small Java programs to practice logic building and problem-solving, improving coding accuracy and efficiency.
- Gained hands-on experience with basic data handling and algorithmic thinking using Java.

CERTIFICATES

Java Programming | Certificate Jan' 2025-May 2025

Object Oriented Programming |Certificate Aug' 2024-Dec' 2024

Data Structures and Algorithms | Certificate Aug' 2024-Dec' 2024

ACHIEVEMENTS

Participated in a college-level Hackathon, demonstrating teamwork and problem-solving skills. Oct' 2024

Solved **200+ coding problems** across multiple platforms.

EXTRACURRICULAR ACTIVITIES

Attended a cyber security workshop to learn core security basics.

Participated in a college bootcamp to **develop** technical expertise and **strengthen** teamwork skills.

Competed in a college dance competition, **demonstrating** creativity and confidence

EDUCATION

Lovely Professional University Phagwara, Punjab

Aug' 2023 – Present

Bachelor of Technology

Computer Science and Engineering; CGPA: 7

M.R.D. INTER COLLEGE Muzaffarpur, Bihar

Mar' 2022 – May 2023

Percentage: 62%

Intermediate

D.A.V. SCHOOL Muzaffarpur, Bihar

Mar' 2020 – May 2021

Percentage: 68%

Matriculation
